

Building the AIWS City

Nguyen Anh Tuan, CEO of the Boston Global Forum
World Leadership Alliance-Club de Madrid Conference, September 17, 2020

1. Purpose:

- To create an all-digital, virtual, kind, intelligent, and innovative ecosystem for work and life named “the AI World Society City” (the AIWS City).
- To practice concepts from “the Social Contract 2020, A New Social Contract in the Age of AI”, the People Centered Economy, and the Intellectual Society-Thoughtful Civil Society
- To use the Internet and AI to shape brighter futures and to create an ecosystem for work and life with the philosophy of the People Centered Economy.
- The AIWS City is an application and practice of the thoughts and ideas of Vint Cerf: The People Centered Economy.

2. Principles and Concepts:

- Vint Cerf’s idea:” *“All people can create value for each other. A good economy has an ecosystem of organizations that lets that happen, in the most meaningful and fulfilling ways.”*
- *The AIWS City is an all-digital virtual city based on trusted open data, that applies the standards of “the Social Contract 2020”, “People Centered Economy”, “Trustworthy Economy”, “Intellectual Society, a thoughtful civil society”, and “AI-Government”.*
- The features of Intellectual Society, a thoughtful civil society, are **knowledge, critical thinking and social responsibility.**
- The AIWS City can assist citizens to **become more thoughtful by enhancing knowledge, critical thinking and social responsibility**
- AIWS creates the concept of **AIWS Value**. *AIWS Value: traditional value (products, services, data, innovation, creativities, etc.) + social values (contributions). Recognize and exchange traditional and social values.*

The Boston Global Forum * The Michael Dukakis Institute for Leadership and Innovation

- The AIWS City will operate based on AIWS Value in order to create a good Ecosystem of the People Centered Economy - “*all people can create value for each other*”.

3. Model of the AIWS City:

The AIWS City includes: Government of City, Citizens, Companies, and Intellectual Society- Thoughtful Civil Society

Governments: use AI-Government (government assisted by AI, Data Science, and Internet)
Build infrastructures for AI-Government based on Internet and Data Science (AI).
Create social works for citizens and supports special education programs for citizens, creating Ecosystem of the AIWS City.

Companies: apply Trustworthy Economy and support the People Centered Economy.

Citizens: all citizens in the world that accept, respect, and practice the standards and regulations of AIWS City can become its citizen. AIWS citizens create values from Ecosystem of the AIWS City.

Intellectual Society-Thoughtful Civil Society in the AIWS City: promote “the Social Contract 2020” and AIWS Value, as well as collaborate to create Ecosystem of the AIWS City.

4. Implementation:

The AIWS City Board of Leaders are: Governor Michael Dukakis, Chairman of the Boston Global Forum, Nguyen Anh Tuan, CEO of The Boston Global Forum, Professor Alex Pentland, MIT, Vint Cerf, Father of the Internet, Chief Internet Evangelist of Google, Professor Zlatko Lagumdzija, Former Prime Minister of Bosnia and Herzegovina, Professor Nazli Choucri, MIT, Professor David Silbersweig, Harvard University, Professor Thomas Patterson, Harvard University, Marc Rotenberg, Director of Center for AI and Digital Policy at Michael Dukakis Institute.
